Right Networks Earns 2019 PRIME Technology Award from K2 Enterprises

HUDSON, N.H (September 20, 2019) – Right Networks has earned the 2019 Prime award from the K2 Quality Awards presented by K2 Enterprises, which recognize the innovators accelerating the pace of change in the accounting industry. While the K2 Quality Awards are now in their 18th year, K2 Enterprises launched the Prime award in 2015, an honor given to only one company that meets a demanding list of criteria focused on the quality of technological innovations, corporate vision, and long-term stability.

"Right Networks has expanded its product line with new solutions, added a powerful transaction importer, and made significant changes to the application architecture," said Brian Tankersley, Director of Strategic Relationships for K2 Enterprises. "I can think of no other company that has focused so much on the hosting industry for the accounting profession."

Its ability to meet the following strict criteria helped Right Networks earn the Prime award:
- Reasonable management goals and expectations
- Long term stability in the accounting market
- Clear and honest communication with employees and market influencers
- High quality products
- Top shelf customer support
- Significant commitment to product development and product improvement
- Great management vision and direction for both current and future plans

"The Right Networks team is thrilled to see its commitment to innovative product advances recognized with the Prime award," said Joel Hughes, CEO of Right Networks. "To be selected by the highly-respected team of K2 Enterprises instructors, who also take into account end user feedback, is truly an honor, underscoring our vision for a seamless, safe and productive cloud accounting environment."

Right Networks delivers the first, and only, hosted solution supporting 24x7 data transfer and synchronization between QuickBooks Desktop and the variety of third-party SaaS applications used by its diverse customer base. The highly secure, proprietary environment enables the Right Networks team to deliver its solution with no scheduled downtime, while the cloud-connected app ecosystem gives customers the ability to work from anywhere, at any time.

About K2 Enterprises

K2 Enterprises is a Hammond, Louisiana based organization that provides continuing professional education services to the accounting profession and marketing consulting services to technology providers in the accounting market. K2 Enterprises delivers approximately 700 educational programs to over 30,000 professional accountants on an annual basis throughout the United States and Canada. K2 team votes are influenced by end user feedback and experience from consulting and extensive teaching. Detailed biographies on each of the polled members can be found at http://www.k2e.com/team.

About Right Networks

Right Networks helps accounting firms and their clients move their desktop accounting software and business-critical applications to the cloud. Its curated application ecosystem consists of 250+ best-in-class applications, including QuickBooks Desktop, Expensify, Bill.com, Avalara, SmartVault and Webgility. The company also offers the first, and only, hosted solution supporting 24x7 data transfer and synchronization between QuickBooks Desktop and third-party SaaS applications with Autofy. With no scheduled downtime and an always-on environment as well as 24/7 tech support and enterprise-class security, Right Networks customers achieve the flexibility that is critical to serving their clients and/or running their business. The company has earned widespread industry recognition and was most recently named a 2019 CPA Practice Advisor Readers' Choice Award recipient.
