

Right Networks Ranks as 7th Fastest Growing Company on Business NH Magazine's List of Top 100 Private Companies

HUDSON, NH (November 2, 2018) – [Right Networks](#), a premier provider of cloud solutions to accountants and small and medium-sized businesses, has been named to Business NH Magazine's Top 100 Private Companies for the second year in a row. Right Networks was ranked the seventh fastest growing company on the list, a result of the company's 20%+ year-over-year growth.

"Right Networks is honored to be included among New Hampshire's most successful private companies," said Joel Hughes, CEO of Right Networks. "From the many distinguished universities developing a diverse talent pool, to a growing innovation economy, New Hampshire is a great state to do business in and the strength of this list underscores that. The Right Networks team is excited to continue our aggressive growth and to hopefully earn a spot on this list for many years to come."

Headquartered in Hudson, New Hampshire, Right Networks was founded in 2002 and currently cloud connects more than 100,000 people at more than 15,000 companies.

About Right Networks

Right Networks is the leading provider of cloud-based accounting and business solutions for CPA firms, accounting professionals and small to medium businesses who want to gain all the benefits of cloud-based applications without needing to replace what they use today. The Right Networks cloud combines advanced, highly-available technology with 24x7x365, U.S. based phone, email and chat support to deliver an always accessible service experience, allowing customers to focus on growing their businesses.
